

LOOKING DEEPER – INTEGRAL PATHOLOGY

HAIR TISSUE MINERAL ANALYSIS AND FUNCTIONAL TESTING FOR COMPREHENSIVE CARE

Advanced Hair Tissue Mineral Analysis Seminar and Workshop

Functional and accurate pathology testing informs the practitioner of the direction of patient care. Appropriate investigation techniques can uncover information integral to the identification and treatment of the root of illness without wasting time on costly “trial and error” interventions.

As a stand-alone test, Hair Tissue Mineral Analysis (HTMA) provides invaluable insight into a patient's physiology to form a basis for treatment. When combined with complementary pathology tests, HTMA gives the practitioner the confidence to responsibly and effectively continue, redirect or initiate treatment.

Sharpen your investigative skills and improve your diagnostic acumen

Join us for the InterClinical Laboratories 2016 Seminar Series to sharpen your investigative skills and improve your diagnostic acumen. Expand your understanding of the strengths and limitations of commonly used pathology tests and how HTMA has become an integral part of comprehensive health screening. Dr Jane Chapman and Mr Zac Bobrov, leaders of the integrative medicine field and experts in HTMA, offer a mentorship forum and a series of interactive lectures with in-depth case studies including: chronic pain, hormone imbalance, mental health, children's mental, growth and behavioural problems and autoimmune conditions.

Become an advanced user of Hair Tissue Mineral Analysis to broaden your scope of practice, easily identify optimal treatment and improve clinical outcomes.

SEMINAR OUTLINE:

HTMA Primary Course – Saturday

Introduction to Hair Mineral Analysis in Clinical Practice

- Overview of essential minerals
- Toxic and heavy metals
- The importance of mineral ratios
- Mineral synergists and antagonists
- Endocrine relationships
- Report interpretation and metabolic typing
- Case studies and examples
- Hair sampling, procedures and laboratory overview

HTMA Secondary Course – Sunday

Hair Tissue Mineral Analysis and Integral Functional Testing for Comprehensive Care

- Strength and limitations of hair, blood and urine mineral testing
- Using HTMA with other integral pathology tests
- Exploring mineral imbalances in challenging conditions
- Case studies and examples
- Advanced report interpretation
- Improving diagnostic acumen with HTMA
- Minerals in effective treatment strategies

PRESENTED BY:

Zac Bobrov – Technical Director, InterClinical Laboratories

Zac is a prolific educator, avid researcher and engaging lecturer with over 20 years' experience in the field of nutritional and environmental medicine. Today, Zac is recognised as one of the world's leading experts on Hair Tissue Mineral Analysis interpretation and is Technical Director at InterClinical Laboratories. He specialises in the utilisation of complementary medicines for the treatment of nutritional imbalances and heavy metal toxicity. As an educational speaker, Zac has a unique talent for presenting complex evidence based science in a format that's entertaining, easy to understand and relevant to contemporary clinical practice.

Dr Jane Chapman MBBS FRACGP

Dr Jane Chapman is a medical doctor with a holistic approach to health and well-being. Initially trained in orthodox medicine at Tasmania University, Jane graduated in 1989 and soon realised that the key to successful clinical outcomes was to take a proactive approach in treating the underlying causes of disease and assessing each patient as unique. Jane now operates a progressive Integrative Medical clinic on the Gold Coast and works closely with Naturopaths and Nutritionists to focus on a patient-centred holistic approach to healthcare. She specialises in a range of functional pathology testing such as HTMA and offers complementary health treatment programs for toxicity, fatigue, weight management, hormonal problems and children's health, including nutraceuticals and intravenous therapies.

VENUES & TIMES:

Brisbane:	6 and 7 August 2016	Hotel Jen T: 07 3238 2222
Melbourne:	13 and 14 August 2016	Vibe Savoy Hotel T: 03 9622 8888
Perth:	27 and 28 August 2016	Rendezvous Hotel T: 08 9466 8103
Sydney:	10 and 11 September 2016	Vibe Hotel T: 02 8272 3312
Adelaide:	17 and 18 September 2016	Adina Apartment Hotel T: 08 8112 0000
Auckland (NZ):	15 and 16 October 2016	Auckland Ellerslie Novotel T: 09 5298 994
Hobart:	29 and 30 October 2016	The Old Woolstore Apartment Hotel T: 03 9529 8994

InterClinical Laboratories FOR RELIABLE CLINICAL DATA

SEMINAR PROGRAMME:

SATURDAY – DAY 1 (PRIMARY COURSE) Introduction to HTMA in Clinical Practice

11:30 – 12:00 **Registration**

12:00 – 2:00 **Utilising Hair Tissue Mineral Analysis in Clinical Practice**

Zac Bobrov, Technical Director. Nutritional, Additional and Toxic Minerals through HTMA. An in-depth look at mineral ratios and metabolic typing as it relates to the HTMA graph.

2:00 – 2:45 **Afternoon Tea**

2:45 – 3:15 **HTMA Sampling, Laboratory Protocols and Procedures**

Jodie Webster, Naturopathic Consultant. A quick overview of what goes on at the lab, report formats and correct hair sampling.

3:15 – 4:45 **HTMA clinical examples**

Zac Bobrov. Osteoporosis, adrenal health, autoimmune conditions, behavioural disorders and other clinical examples.

4:45 – 5:15 **Questions and Answers**

5:15 **Seminar Day 1 seminar concludes**

SUNDAY – DAY 2 (SECONDARY COURSE) Hair Tissue Mineral Analysis and Integral Functional Testing for Comprehensive Care

8:00 – 8:30 **Registration**

8:30 – 10:00 **Strengths of the HTMA Test**

Zac Bobrov, Technical Director. An overview on why we use biopsy hair tissue, the strengths of the HTMA in comparison to blood and urine samples.

10:00 – 10:30 **Morning Tea**

10:30 – 12:00 **HTMA as an Integral Health Screening Test for Improved Clinical Practice – A Clinician's Perspective**

Dr Jane Chapman, Senior Lecturer Dr Jane Chapman will discuss how the HTMA has become an essential part of her clinical practice and why it plays such a key role in improving clinical outcomes.

12:00 – 1:00 **Lunch**

1:00 – 2:30 **Clinical Case Studies PART 1**

Dr Jane Chapman. Dr Jane Chapman delves into case studies from her clinical practice involving patients with chronic pain, hormone imbalance, mental health, children's mental, growth and behavioural problems and autoimmune conditions and the key role of HTMA with other pathology tests.

2:30 – 3:00 **ICL Product Review**

Jodie Webster, Naturopathic Consultant. An overview of both the ICL Health and Trace Nutrients Range.

3:00 – 3:30 **Afternoon Tea**

3:30 – 4:45 **Clinical Case Studies PART 2**

Dr Jane Chapman. Dr Jane Chapman covers in depth complicated cases from her practice where HTMA and other functional tests have been an integral part of her clinical appraisal and treatment recommendations.

4:45 – 5:15 **Questions and Answers. Dr Jane Chapman and Zac Bobrov**

5:15 **Seminar Day 2 concludes**
